WORK EXPERIENCE

RAZORPAY | Solutions Engineer — August 2024

- Working as a **Solutions Engineer** in the **Large Merchant Enterprise (LME)** segment, leading **end-to-end payment and loyalty integrations** across Payment Gateway and Engage platforms.
- Owned and delivered **150+ merchant integrations**, enabling successful go-live for **15+ enterprise clients** including **Amazon MX Player**, **Decathlon**, and **Pizza Hut**.
- Partnered directly with merchant **engineering and product teams** to design scalable integration architectures across **web and mobile platforms**.
- Diagnosed and resolved **complex production issues** by analyzing API logs, request/response flows, and system behavior, reducing integration delays and failures.
- Led **high-priority escalations** and collaborated with internal **product, engineering, and operations teams** to drive faster resolution within SLA timelines.
- Worked extensively on **payment systems** including **UPI, cards, wallets, and netbanking**, along with **loyalty solutions** such as gift cards and promotional wallets.
- Leveraged **AI tools** such as **NotebookLM** and **Claude** to build internal knowledge bases, analyze integration issues faster, and document reusable debugging patterns.
- Used **AI-based development tools** to quickly build **demo checkout flows and sample UI integrations**, helping merchants better understand and validate implementation approaches.

TEMENOS | Product Engineer, Software Engineer — January 2021 – September 2022

- Built and deployed **16+ REST APIs** as part of a **banking microservices architecture** using **Java**.
- Worked on microservices deployed using **AWS, Docker, and Kubernetes**, managing and supporting over **100+ APIs**.
- Implemented monitoring and automation using **AWS CloudWatch** for improved system reliability.
- Gained hands-on experience with **PostgreSQL** and **MongoDB** for data management.
- Collaborated with client teams on **feature discussions and technical implementations**.
- Worked in an **Agile environment** using **Git and Bitbucket**.
- Contributed to **test-driven development**, including test automation and manual testing.

PROJECTS

Party Microservices — Chennai | 2021-2022

Banking Microservices handling customer-related APIs

- Developed and maintained microservices handling customer-related APIs.
- Worked with large-scale systems involving **100+ REST APIs**, including deployment across **Docker, Kubernetes, AWS, and Azure**.
- Monitored and managed APIs while contributing to development of complex backend logic.

Marketing Catalog Microservices — Chennai | 2021-2022

Banking Microservices handling product-related APIs

- Built and supported APIs related to banking products such as **loans** and **credit cards**.

SKILLS

Languages: Java, C, Python
Backend & APIs: REST APIs, Microservices, API Integration, Webhooks
Payments & Fintech: Payment Gateway Integration, UPI, Cards, Netbanking, Wallets, Payment Flows, Refunds
Debugging & Tools: API Debugging, Log Analysis, Postman, Network Debugging
Cloud & DevOps: AWS, Docker, Kubernetes
Databases: MySQL, PostgreSQL, MongoDB
Communication & Collaboration: Stakeholder Communication, Client Interaction, Cross-functional Collaboration, Problem Solving
Tools: Git, Bitbucket, IntelliJ, VS Code, Mongo Compass, Maven, DBeaver

EDUCATION

RAJAGIRI SCHOOL OF ENGINEERING AND TECHNOLOGY

Kochi | 2016 - 2020

Bachelor Of Technology with Honours in Computer Science and Engineering

- CGPA : 8.23
- **Coursework:** Data Structures and Algorithms; Operating Systems; Object Oriented Programming; Database Management Systems; Computer Networks

ACHIEVEMENTS

- **Team Award** for delivering complex projects within SLA timelines.
- **Docker Foundations Professional Certificate.**
